The **FD 346 Document Folder** is a fast, dependable, easy-to-use solution for virtually all folding applications. The **color touchscreen control panel** uses internationally-recognized symbols in place of text, making it easy for anyone to use. Six popular folds are clearly marked on the fold plates. Simply load the feeder with up to 500 sheets, and after folding, the FD 346 will hold the finished pieces on patented **telescoping conveyor system**. Additional features include **AutoBatch** for processing sets of documents, **adjustable output stacker wheels**, a **cross-folding guide** for two-pass operation, and the ability to set **custom folds**. The optional **multi-sheet feeder** allows up to 4 stapled or unstapled sheets to be folded at one time.

Color Touchscreen Control Panel
Utilizes easily-recognized symbols in place of text

Adjustable Stacker Wheels
Neatly stack different paper sizes and fold types

Optional Multi-Sheet Feeder
Up to 4 stapled or unstapled sheets can be folded at once

Telescoping Conveyor System
Extends from 14" to 36" in length and holds up to 500 folded pieces

Pre-Marked for Standard Folds
Fold plates are clearly marked for six popular fold types
